

Visit to the Science Museum 2º E.S.O “C”

We left school at ten o'clock and went to the bus stop, but there were a lot of people, so we walked to the Science Museum. When we entered, we went to the laboratory. Inside there were two teachers. They told us how to discover hidden messages now and in ancient times. There are different forms, for example, the César hidden messages. When the visit finished we returned to the high school. We arrived back at one o'clock. I think the activity was interesting and all the students liked it.
